

Ohio's Technology Future In Agriculture Depends on You

Become part of an association that is driven by producers, consultants, agri-businesses, agri-retailers and cooperatives, equipment dealers, industry representatives, researchers, educators, and others.

Work with others to collectively share ideas, solve issues, and identify new areas for research and collaboration through various technologies.

- ▶ Precision Agriculture
- ▶ Remote Sensing
- ▶ Computers and Hardware
- ▶ Agricultural Software
- ▶ Farm/Business Record Keeping
- ▶ Communication/Data Systems
- ▶ Internet and Web Sites
- ▶ E-business/E-commerce
- ▶ Bio-Technology
- ▶ GPS/WAAS
- ▶ Geographic Information Systems
- ▶ and other emerging technologies

Make an Impact

- ▶ Stay abreast of emerging technologies
- ▶ Address agricultural technology policy issues and standards
- ▶ Learn about specific technologies and their applications
- ▶ Assist with technology research and education
- ▶ Facilitate an annual technology conference
- ▶ Make it your association
