About Annie's Project

Mission:

Our mission is to empower farm and ranch women to be better business partners through networks and by managing and organizing critical information.

What women have said about Annie's Project?

"I changed my mind about how to approach communication with my in-laws as business partners."

"I have gained tools to help improve management of our farm and insight on how to communicate the resources to other members of the farm."

"I appreciated getting to meet others with a shared interest."

"I encourage any woman to attend one of these great programs!"

Who is Annie?

Annie grew up in a small farm community with a goal to marry a farmer, and she did. Annie spent her life learning how to be an involved business partner with her farm husband. Annie's Project was designed by her daughter to provide risk management education for women involved in all aspects of the agriculture industry. Since 2000, well over 5,000 women have completed the workshop.

What will you gain?

Annie's Project participants say they find answers, strength, and friendship – and also grow in confidence, business skills and community prestige through this program. Annie's Project provides education and a support network to enhance business skills of women involved in all aspects of agriculture. Through the program, you will gain insight and knowledge about:

- Your personality temperament and how it affects communication
- The importance of organizational skills and goal setting.
- How to find resources and work with professionals to meet your goals.
