

Drones:

How to Scout for Weeds & Pests

Speakers:

- John Barker, OSU Extension Agriculture & Natural Resources Educator, Knox County
- Pat Snyder, Pioneer Seed
- Other local farmers and agriculture professionals

Unmanned aerial vehicles, or drones, are a new technology with lots of unique uses for agriculture. Join OSU Extension on July 19 for an informational program about using drones to scout for weeds and pests.

John Barker, OSU Extension Knox County, and some local farmers and ag professionals will share how to utilize drones to aid in management decisions. This will include video and photos of fields to learn about diagnosing potential pest, weed or nutrient problems.

WEDNESDAY

JULY 19

7:00 – 8:30 P.M.

Frontier Power Community Room
770 South 2nd Street, Coshocton, OH
