

Ohio **SMART** Agriculture: Solutions From The Land

Preserving Ohio's **VIBRANT** local agriculture and ensuring farms **THRIVE** into the future is a goal we all share.

Help us plan for the future of Ohio agriculture. Ohio Smart Agriculture, with The Ohio State University's Initiative for Food and AgriCultural Transformation (InFACT), is led by a steering committee composed of respected Ohio Ag, food systems, health, and conservation experts.

We invite you to share in the discussion. We seek **FEEDBACK** from Ohio producers and agriculture stakeholders to help the team identify, design, and deploy strategies to support **SUSTAINABLE AGRICULTURE** in Ohio to feed not only the world, but especially our most vulnerable neighbors right here in Ohio. The goal is an **ACTION PLAN** for **RESILIENT AG**.

Please join us! Share your views and recommendations at this upcoming forum. Meet and discuss with fellow stakeholders from the agricultural, environmental, food security and health fields about safeguarding agriculture for Ohio's future.

We need input from community members LIKE YOU!

MONDAY
MARCH 5
1:00 P.M. – 4:00 P.M
